

i2 Specifications

Minimalist Design, Multitude of Uses

i2

The Segway® i2 is the perfect synthesis of form, function and fun. It's an environmentally-friendly solution that allows you to glide through your daily commute or zip from errand to errand without worrying about parking. The i2's lithium-ion batteries can carry you 24 miles/38 km or up to 480 city blocks on a single charge*; powering itself smoothly up or down stairs and curbs and keeping you in control on steep grades. If you need to use more than one form of transportation — no worries. The versatile i2 can easily be stowed in the trunk of a car or carried onto many modes of public transit. It's only fair to warn you though — gliding on an i2 is highly addictive. Once you've experienced it, you'll find yourself constantly looking for opportunities to ride and enjoy!

* Actual range depends on terrain, payload and riding style.

Please refer to and follow all instructions in the user materials.

| Weight | | Tire Diameter | | Footprint | | Max Speed | | Range | |
|----------|---------|---------------|-------|-----------|---------------|-----------|--------|-------------|-------------|
| 105 lbs. | 47.7 kg | 19" | 48 cm | 19" x 25" | 48 cm x 63 cm | 12.5 mph | 20 kph | Up to 24 mi | Up to 38 km |
